**Our mission** is to assist in providing the **highest standard of care** to the elderly and disabled population of WA, whilst providing a **personalised, professional, and accessible service**

**PULSE** Homecare is committed to providing an excellent quality of care over a range of services. We strive to ensure care is delivered to you at the highest level possible, every time.

Our service staff encourage safety and independence for you to remain living in your own home. We offer you an individualized client-centered approach to care.

## **PULSE Homecare Offers:**

### **Personal Care Assistance**

Care Assistants (Service Staff) will assist you with activities of daily living, whilst continuing to promote independence. These activities generally include showering, dressing, toileting, mobility, exercise, meal preparation, fluid intake, assistance with medication and other needs as required.

### **Household Duties**

Assistance in the general running of your house, with tasks that may include: housekeeping, washing and ironing, shopping, food preparation, and light home maintenance.

### **In-Home Respite Care**

For Carers to take a well deserved break! Some of the above duties may be undertaken in conjunction with respite care.

### **Nursing**

Registered and Enrolled Nurses are available for in-home procedures, or for high level care.

## **After the first call - The Process**

**1: Evaluation:** We visit you and your family to identify your home care needs and requirements. *Obligation free!*

**2: Service Agreement:** A document based on the evaluation which outlines your needs and requirements and the services you will receive from PULSE.

**3: Caregiver Selection:** Based on the evaluation and service agreement, a suitable carer is selected in conjunction with you and your family. It is important that you are comfortable with the assigned carer, therefore this is an important stage of the process.

**4: Custom Care Quality Assurance:** To ensure that the services you receive are of the highest quality possible, and that you are 100% content, PULSE will arrange for regular scheduled visits where a Registered Nurse undertakes an in-home evaluation of your current situation and the services you have in place.
